

Your dog flies with you. In the cabin.

PETS IN THE CABIN, DONE PROPERLY, SINCE 2011

Charter-A has flown dogs, cats and the occasional more unusual companion in the cabin with their owners for well over a decade, on private jets, turboprops and helicopters across the UK and Europe. One call and we take care of everything: an aircraft and crew who welcome your pet, the paperwork checked for your route, one clear price, and a team with you from first enquiry to landing.

WHY PET OWNERS FLY WITH CHARTER-A

In the cabin, with you

No hold, no crate unless you prefer one, no handing over at a counter. Your pet sits with you from door to door, and the crew are briefed before you arrive.

We know the paperwork

Microchips, health certificates, tapeworm windows: we tell you exactly what applies to your route, in plain English, and when. Within the British Islands there is usually nothing to do at all.

Aircraft that welcome pets

We only quote aircraft that are approved to carry your animal in the cabin, and any airport pet fee is stated up front, never on the day.

One inclusive price

The price you approve is the price you pay. No hidden costs, no surprises on the day.

Honest about the weather

If a flight is cancelled because of the weather, you pay nothing. Winter decisions are made with you, usually a day ahead, never at the airport.

Regular routes, looked after

Fly the same route every few weeks and we set up a repeat-route arrangement: a standing price, familiar aircraft and crews, and a desk that already knows you and your dog.

WHAT OUR CLIENTS SAY
